

WATER PAANI

MONICA SANS DURAN

Composer & Lyric writer
SONGS FOR COOPERATION

Water is something that we need for living,
It's good for our body, it's good for our soul,
Water starts flowing when the skies do their draining,
And runs through the valleys like fresh liquid gold.

Water is something that can be corrupted
It's bad for our body, its bad for our soul,
Water gets grimy when the people neglect it,
Not burying their wastes in appropriate holes.

Water, Paani! Don't drink water if you don't know it's safe!
Water, Paani! Don't drink water if you don't know it's safe!

Water, Paani! Napiu paani edi sapha chhaina!
Water, Paani! Napiu paani edi sapha chhaina!
Water, Paani, Water...

Water is something that can cause infections
It harms all our body, it harms all our soul,
Germs are inside it, and we must take some action, by
treating the water the way we were told:

*Water must be disinfected,
If you really wanna be well hydrated!
Filter, boil or chlorinate it,
If you don't wanna be intoxicated!!*

Water, Paani! Don't drink water if you don't know it's safe!
Water, Paani! Don't drink water if you don't know it's safe!

Water, Paani! Napiu paani edi sapha chhaina!
Water, Paani! Napiu paani edi sapha chhaina!
Don't drink water if you don't know it's safe!
Don't drink water if you don't... know.... it's safe!!!

....You better watch out what you drink, babe!
